- Max Capacity: 30

YORK U

**Projectors in 330, 338 and 282 CFA
In case of Focusing and Sound problems**

Here are the steps for users of the overhead projectors in the above-mentioned rooms:

1. Plug HDMI cable into the laptop (dongle may be needed).
2. On the top of the screen on the right an image of a monitor will appear, click on this.
3. Scroll down to: Open Display Preferences
4. Go to the image that indicates SCALE and click on that box/dot
5. Select 720 p and save. This will create the sharpest image.

Sound: Go to System Preferences on the top left menu bar; click on Sound and then select Epson PJ. You must then use the remote control to change the sound level.
